COVID-19 Vaccination Policy

We have been working hard at Beyond Our Boundaries to ensure that we can travel safely again, despite the ongoing concerns of COVID-19. We have also been watching the recent developments concerning the Delta variant of the COVID-19 virus.

To continue traveling safely, we are putting a new policy in place regarding vaccinations. Effective September 1st, 2021 and continuing until further notice, we will only be accepting travelers who are fully vaccinated against COVID-19 to travel with us. This includes the COVOD-19 booster, if more than 5 months have elapsed since the last dose.

We've decided this based upon serious consideration for the health and well-being of our travelers, staff, and volunteers and this decision was not made lightly.

Accordingly, participants in any Beyond Our Boundaries trip will be required to provide documented proof of the participant's full vaccination (a one- or two-shot vaccine regiment, plus booster if needed, completed 14 or more days prior to their trip).
